Saturday, November 14

Ready SET Go! is a one-day workshop for high school girls (grades 9-12) during which they will have an opportunity to explore interests in science and technology. The students will interact with professional women from IBM, Daktronics, Banner and Associates, Sencore, HR Green, DGR, and other technology companies, as well as with professors and students from SDSU. The goals of this workshop are to:

- Introduce high school girls to engineering, math, and science through a highly dynamic program of hands-on activities
- Increase student and parent knowledge of engineering, math, and science with regard to academic preparation and professional opportunities
- Provide an environment that facilitates learning and excitement about engineering, math and science
- Inspire girls to continue to pursue the courses of study introduced during the workshop
